

## Beyond LTM

---

**Do you want to continue your growth as an effective leader and gain momentum in implementing what you learned in the Dale Carnegie Leadership Training for Managers program? Beyond LTM supports you in using what you've just learned and aligning your actions with goals in a real-world context.**

A powerful program open only to those who have completed the Dale Carnegie LTM course, **Beyond LTM** is a joint effort of Dale Carnegie of Georgia and Accountable For Change that combines resources from both companies, ensuring your successful transfer of the LTM processes to the workplace. **Beyond LTM** gives you everything you need to put your business strategies into action and make change a reality.

Whether leadership is a new role or one you've been perfecting for decades, **Beyond LTM** provides the right blend of coaching, planning, implementation support and business skills development. Through a thorough, hands-on transformational process, you will incorporate what you learned in the LTM for maximum impact in your personal and professional life.

Accountable For Change makes businesses better by asking where are they now and where do they want to be, and then helps them figure out the best and most effective way to get there. In **Beyond LTM**, we build on the strategies and resources of your LTM program, working directly with you as you make the changes necessary to create a more profitable and productive business.

Put LTM theory into action and make a meaningful difference in your business by taking the next step: **Beyond LTM**. Contact Sue Groszkiewicz, [sueg@accountableforchange.com](mailto:sueg@accountableforchange.com) to learn more about the **Beyond LTM** Program.

Sue is a senior business advisor, an experienced sounding board and problem-solver who helps you work through challenges and provides coaching with just-in-time learning when and where you need it. You'll achieve Individual accountability through a powerful online system to capture strategies and actions to keep you on track. All of these elements work together to support you in adopting a cohesive approach to problem-solving and strategy development that benefits your business in measurable, lasting ways.
