

IMPLEMENT A COMMON APPROACH IN A ONE DAY

PROBLEM SOLVING SKILLS WORKSHOP

Today's environment of constant change, volatility and competitive pressures demands a team capable of making robust decisions, prioritizing key issues and driving strategy into action. Engage with me to guide your team through a series of tools and methodologies to enable them to solve any issue and deliver successful outcomes.

HOW I DELIVER

This 4.5-hour workshop is a fantastic opportunity to get your team to speak a common language and problem solve more effectively, both internally and with clients. Using proven methodologies and a wealth of experience, I cut through complexity and deliver results. Participants "learn through doing," so not only will they have powerful tools to drive strategy implementation, but also be able to apply those tools to the business, a division in the business and in their personal lives.

PRACTICAL OUTCOMES, NOT THEORY

As a participant, you will:

- Walk away with a clear and concise One Page Plan for how you can overcome key issues that you are facing
- Understand how to make robust decisions more easily
- Gain clarity on how to rank issues effectively
- Develop strategies using powerful business tools
- Drive strategies into specific actions
- Allocate responsibilities and timelines for action items
- Apply indicators to monitor performance
- Learn how to adopt a continuous improvement cycle

This workshop can return powerful results for your team, your business and everyone that attends. Reach out to me for additional information or to schedule yours today.

About Us

Accountable For Change helps business leaders diagnose issues, define priorities, determine the step changes that need to occur, and deliver results that lead to companies that demonstrate sustainable success.
